HOLIDAYS.—The *North American Review* for April, has an elaborate article upon this subject, which is well worth the reading and thought of every one interested in social science or social condition, in America. The writer says,—"It is an anomalous fact in our civilization, that we have no one holiday the observance of which is unanimous."

He gives an account of such social and other festivals as we have; most of them are local and imperfect as holidays.

"The American enters into festivity as if it were a serious business; he cannot take pleasure like a European, and is pursued by a half-conscious remorse if he dedicates time to amusement."

"Too many of our social holidays are tricks of trade, too many are exclusively utilitarian, too many consecrate external success and material well-being, and too few are based on sentiment, taste and good-fellowship."

When in reality we do celebrate any occasion as a holiday, we have a hard or a noisy time of it.

"As a general truth, it may be asserted that but two methods of representing holiday sentiment are native to the average taste of our people,—military display and oral discourse."

The higher, nobler and quieter means of recreation are generally unappreciated, and therefore unsought. The writer gives a reason for this:—"Enterprise holds carnival, while Poetry keeps Lent."

The paper, which is thoroughly interesting, closes with an appeal for more and better holidays. The writer justly says:—"If as a people, we cultivated more heartily the social instincts and humane sentiments expressed in holiday rites, life would be more valued, the whole nature would find congenial play, and our task-work and duty, our citizenship and our natural advantages would be adorned by gracefulness, alacrity and repose."

As a universal holiday for the church, Christmas is strongly urged. And as a holiday for the nation, the birth-day of Washington is recommended.

We commend especially the remarks upon these points to every considerate reader.

At a meeting of the American Republicans held at the State House, on Wednesday evening, for the purpose of appointing a committee from each Ward to select suitable persons to fill the municipal offices for the year ensuing.

Col. C. Van Zandt was appointed chairman, and Geo. B. Knowles, Secretary.

On motion, a committee of two was nominated from each Ward for the purpose of nominating a candidate for Mayor, and to call Ward meetings for the purpose of selecting suitable persons for Aldermen and City Councilmen for each Ward, and to report to a subsequent meeting, through this county the candidates selected:

We are informed by the collector that he will be at home all day and evening, to attend upon those who may wish to pay up.

Some mathematical genius, after a laborious research, has just demonstrated the following facts:

The cost of washing linen that might have been worn one day longer, just as well, amounts to enough, in this country, to defray the expenses of the American board of foreign missions.

The expense of buttons worn on the backs of our coats, where they are of no earthly use, is equal to the support of all our orphan asylums!

The value of tails to dress coats, (of no value in reality for warmth or convenience,) is actually greater than for common schools! —Miss Democrat.

What the money wasted on hoops, and flounces, feathers and ribbons, by our sweet "better halves" would do—heaven only knows.—Far be it from us to suggest.

A Great Day's Business.

Our levee, yesterday, presented a sight unparalleled in the history of our commerce. Upwards of twenty-four steamers arrived from six o'clock on Sunday evening till six o'clock yesterday evening, from the upper and lower rivers, and brought an amount of freight greater than was ever before known to reach our city in one day. So crowded was the levee that several boats—the A. B. Chambers, and others, could not find a landing—and many only partially discharged their cargoes. Produce, merchandise, farming utensils, furniture, &c., &c., were piled upon tier from the waters' edge to the curb. In fact, so jammed was every inch of the levee, that draymen, clerks and boatmen were unable to do anything. Such evidence of the importance of the trade we enjoy, and of the fabulous wealth here presented, never greeted the eyes of our citizens. Ten boats were from the Ohio, and these brought about two thousand passengers destined principally for Kansas; besides which, they were heavily laden with the manufactures of the Ohio valley.

In the state of things thus presented to our citizens, may be seen what our future will be when the rich and fertile plains of the north-western territories shall be covered with an industrious and enterprising population, composed of farmers, mechanics, merchants and manufacturers. Should the present unexampled prosperity of St. Louis continue, she will soon be the central metropolis of the United States, and a hundred cities will act as tributaries to her growth in casting their wealth into her treasuries. Increase of trade at this point will be both the cause and consequence of unparalleled free white immigration to our state. And to free white labor must we look for the proper development of our resources and the realization of our prophecies concerning the greatness of our future.

The above we clip from the Missouri Democrat of April 2d. It shows a new state of feeling on the slavery question, and if the people of Missouri understand their true interest as thoroughly as the "Democrat" seems to his anticipations of greatness for St. Louis will be fully realized. This is a healthy indication, Freedom will reap a harvest west of the Mississippi.

The Home Journal asks—

—What poem need be any better than the following half dozen statistics?

—An idea of the amount of letter-writing in the United States may be inferred from the number of postage stamps sold, which, during the last year, was one hundred and fifty millions.

—Mr. Buchanan's cabinet it "solid" in one respect—all men of fortune. Cass is worth two millions; Cobb and Floyd half a million each; Thompson a million.

—It is calculated that the clergy cost the United States \$12,000,000 annually; the criminals, \$40,000,000; the lawyers, \$70,000,000, and liquor \$200,000,000.

—There are four hundred and fifty-nine harbors on the Atlantic coast of the United States.

—It is said there are about fifty applicants at Washington for every office at the disposal of the President.

—There is a grove of trees in California averaging from three hundred and twenty-five to three hundred and seventy-five feet in height.

PATENTS.—The following patents were issued during the week ending March 31: John Booth, of Pawtucket.—For improvement in steam drying cylinders.

Lucien E. Pratt, of South Kingstown, R. I.—For improvement in preparing yarn, for dyeing and scouring.

Wm. H. Houston, of Belfast, Me.—For machine for composing and distributing type.

REMAINS OF A MASTODON.—The Williamsburg (Va.) Gazette says that last week two sailors discovered, about a mile west of that place, the tusks of some huge animal which was five feet eight inches in length. Three joints of the back bone were also found, each measuring two feet seven inches in diameter. These specimens are to be removed to the Philadelphia Museum.

There is much sound philosophy in the following brief extract from an editorial in the New York Tribune:

"Life is short; and that portion of it which one human being devotes to injuring, punishing and destroying another, we are inclined to think will pay but a poor dividend on the final settlement of differences."

John S. Edwards, the oldest resident of Springfield, died on Saturday, at the advanced age of ninety-three. This father was killed at the battle of Bunker Hill, and he joined the army at the age of sixteen, and for many years past has received a pension for his services.

A. I. Harrison, son of John Scott Harrison, and grandson of the late Gen. Harrison, has been appointed second lieutenant in the 6th regiment U. S. Infantry. The appointment was one of President Pierce's last official acts.

THE NEW YORK AIR LINE RAILROAD.—The Middletown, Conn., Argus has information to the effect that Mr. Ely, the President of the New York and Boston Air Line Railroad, has succeeded in raising the greater portion of the sum necessary to insure the completion of the road to Woonsocket, R. I. The full amount required will undoubtedly be subscribed during the next week, and the men will be set at work on the line in the course of the present month.

The Argus says:—"As soon as this is done, we are informed, it is the intention of the directors to proceed immediately to raise the amount requisite to finish the road onward to Pascoag, R. THE OLD COLONY RAILROAD ACCIDENT.—It is now ascertained that the accident on the Fall River railroad was in consequence of three iron rails accidentally falling from the construction train as it was passing North Bridgewater. The men who had charge of the rails did not discover the loss from the car till the train reached Titicut, some ten miles beyond the place of the accident.

The difficulty of refuting very silly and weak arguments reminds one of the well-known difficult feat of cutting through a cushion with a sword.

SPECIAL NOTICES.

DAVIS' PAIN KILLER.

Brooklyn, Conn., June 15, 1854. FRIEND DAVIS.—Although a stranger to you, I take the liberty of addressing a few lines to you, for the purpose of saying a few words in favor of your valuable medicine. I have used your Pain Killer for a number of years, and for bowel complaint and burns, and in fact for pains of all kinds, I think it pre-eminent. Before I became acquainted with your medicine, I had a violent attack of dysentery, which reduced me very low, in fact my friends thought I could not survive, but by the treatment of a Boston Physician, the best remedy I then knew, I recovered. Since then, I have had several attacks, one very violent, about four years ago. I was attacked at 3 o'clock in the morning, and at sunrise, I was not able to get off my bed, I sent and got a twenty-five cent bottle of your Pain Killer, which I commenced taking, according to directions, and at six o'clock in the evening my bowels were regular, and I was up and moving about, although somewhat weak. I would recommend it to all similarly afflicted, to avail themselves of your invaluable medicine.

I am, sir, yours respectfully,

ELMER WILLIAMS.

The genuine Perry Davis' Pain Killer is now put up in patent bottles, with the words Davis' Vegetable Pain Killer blown in the glass; and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand from the original proprietor, John D. Dennis. Prices of bottles 12 1/2 cents, 25 cents, 50 cents, and \$1 respectively.

A CARD TO THE LADIES.

Dr. DUNCAN'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that female men enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature, and whenever that is the case, the Pills will be invariably successful, as preventive, or may always be used successfully as a curative. Price \$1.00 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 137 Thames St. They will supply the trade at manufacturer's prices. Ladies, by enclosing \$1.00 to STURGIS & CO., Box 24 Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. ly2-ly
